

High Tech Gays President, Richard P. Rudy passed away from complications of AIDS on Sunday August 26, 1990. Rick had been in the hospital for most of the past 4-5 weeks.

Our sympathies go to Rick's lover, Steve, and to both his parents who were at his side.

HTG will dedicate the September 9th meeting and next newsletter to Rick. Rick has been president of HTG since its beginning almost 8 years ago and has been the primary driving force making High Tech Gays an important and highly respected gay organization regionally, and even nationally.
