Dear Achim,

I have received your application for membership to High Tech Gays and welcome you to our organization. It is always a pleasure to have a new member from a foreign country and you are our first member from Germany. I would be very interested to know how you learned of HTG.

Because we are not able to handle membership payments by credit card, I have arranged to have the community center where we meet process it for us. To complete the processing, I will need you to send us a letter with your Mastercard number, the expiration date, and your authorizing signature.

Thank you for your support.

Sincerely,

A handwritten signature in cursive script that reads 'Donald L. Nelson'.
