Mr. Rick Rudy
High Tech Gays
P.O. Box 6777
San Jose, California 95150

Dear Rick:

Please either announce at the next meeting of High Tech Gays or publish in your newsletter my extreme delight over the warmth of my reception at the HTG meeting of Sunday, October 8, 1989. I much appreciated the friendliness and hospitality which you and the group showed me at that meeting. It is always encouraging for me to speak in front of gay groups who are as concerned as HTG in issues of importance to them and our society as a whole regardless of whether or not they agree with my ideas. However, a society such as ours can only continue to endure and ensure and procure the rights of its citizens when those ideas, for better for worse, are allowed to be heard and thought about by its members. Without this there could be no change and our rights would neither be procured nor protected. High Tech Gays can only be applauded for allowing those ideas to be heard and thought about by participating in this very process which is the essence and soul of our governmental ideals.

Again, thank you and all the members of HTG for having me speak before them. I am very privileged and honored by the experience. As a token of my appreciation please find enclosed my \$25.00 check for membership in HTG.

Very truly yours,

James L. Fallon
